

Daily Mass Readings Podcast

The New American Bible daily Mass readings are now downloadable from the U.S. Bishops' Catholic Communication Campaign (CCC) Web site, in association with the Confraternity of Christian Doctrine using audio recordings of the readings from the New American Bible.

"The Internet is now a part of our lives and a medium which can help provide for spiritual enrichment," says Archbishop George H. Niederauer of San Francisco, chairman of the USCCB Committee on Communications. "This service complements the text versions of the readings already popular on the USCCB Web site and responds to the many requests for 'podcasts' of the readings."

You can use any of the most popular podcast services − Feedburner, iTunes, or Podcast Alley − to subscribe and download the readings every day. [Click here.](#)
